PROFESSIONAL SUMMARY

I am a Frontend Engineer with over 7 year of experience building responsive and interactive web applications. I specialize in using modern technologies like React JS/Next JS and React Native to create user-friendly interfaces. Throughout my time working at a company, I've collaborated with Designers and Backend Developers to deliver high-quality web solutions that are optimized for performance and scalability. I'm passionate about continuously learning and improving my skills in Frontend Development.

WORK EXPERIENCE

PT Pendidikan Ganesha Operation | Bandung, West Java, Indonesia
Frontend Developer | July 2023 – Present

- Build interactive, user-friendly, and responsive websites and web applications using HTML, CSS, TypeScript, and frontend frameworks React JS and Next JS.
- Work closely with UX/UI designers to implement designs, ensuring high-quality user experiences and seamless transitions between design and development.
- Ensure websites and applications are optimized for speed and scalability, reducing load times and improving performance across devices and browsers.
- Test and ensure compatibility of web applications on different browsers (Chrome, Firefox, Safari, Edge, etc.) and platforms (desktop, mobile, tablet).
- Write clean, maintainable, and reusable code, following best practices and coding standards. Participate in code reviews and contribute to team code quality.
- Collaborate with backend developers to integrate RESTful APIs, ensuring smooth data flow and functionality in the frontend.
- Identify, troubleshoot, and resolve bugs and issues in the frontend, both in development and after deployment.
- Use Git or other version control systems to manage code, contribute to repositories, and work effectively in a collaborative team environment.
- Implement mobile-first designs and ensure that applications function properly across various screen sizes and resolutions.
- Keep up with the latest trends, technologies, and best practices in frontend development, incorporating new tools and techniques as appropriate.
- Ensure that web applications meet accessibility standards (WCAG) and are optimized for search engine optimization (SEO).
- Write technical documentation for features, workflows, and development processes, ensuring knowledge sharing within the team.
- Participate in agile development processes, including daily stand-ups, sprint planning, and retrospectives, to deliver high-quality software in a timely manner.

EDUCATION

Bachelor of Information System, Metamedia University — September 2018 - August 2022

Fullstack Developer, Refactory — November - December 2022

Fullstack Node.js Developer, CodeXAcademy — February - April 2023

CERTIFICATIONS

Fullstack Node.js Developer May, 2023

SKILLS

- **Programming Languages:** JavaScript, TypeScript, Node JS, Bun JS, SQL
- **Frameworks:** React JS, React Native, Next JS, Nest JS, Express JS, Vue JS, Nuxt JS, Tanstack
- **State Management & Data Fetching:** Redux, Redux Toolkit, Zustand, TanStack Query, Context API
- **Styling & UI Libraries:** Tailwind CSS, Bootstrap, SASS/LESS, Mantine, Chakra UI, Material UI, Styled Components
- **Testing:** Jest, Vitest, React Testing Library
- **Tools & Utilities:** Webpack, Vite, Babel, ESLint, Prettier, Storybook, Postman, REST API, GraphQL
- **Version Control:** Git, Github
- **Design & Prototyping:** Figma, CorelDraw
- **Deployment & DevOps:** Vercel, Netlify, Docker (basic), CI/CD
